

TOWN & COUNTRY
LUXURY FIREPLACES

Attention to detail and industry-leading innovation.
At Town & Country,
every detail is important.

In this era of mass-production, Town & Country remains a high-quality product made with premium materials and skilled craftsmanship. Town & Country luxury fireplaces are hand-crafted from heavy 12-gauge aluminized steel, offering superior heat dispersion, eliminating any “ticks” or “bangs.” Our fireboxes are continuous-seam welded, and are 300% heavier than other clean-face fireplaces. The result is quieter operation and safer, gas-tight joints for more durable performance.

Town & Country was the first to create the clean face fireplace and immediately revolutionized the industry by disproving the long-held belief that a gas fireplace could never mimic a real wood fire. We now offer the largest true Clean Face – so you see nothing but huge, bold flames behind disappearing glass.

Town & Country’s breakthrough Maestro Control™ technology creates on-demand electronic ignition, with a battery backup system for power outages that can cut your fireplace’s annual fuel consumption by up to 74%.

Architects, designers and home owners have long searched for a way to disguise unsightly vent terminations. Our new flush Power Vent Wall Termination is another technological breakthrough that garnered both an industry nominated Vesta Award and a IIDEX Innovative Product Award.

From All Season Comfort™ for optimum flames and gentle radiant heat designed not to compete with sophisticated HVAC systems, to Smart Home capability, to award-winning easy-to-use controls, and to venting versatility other fireplace brands just can’t match.

A sophisticated statement. About you and your home.

Every one of our fireplaces is an industry leader in design and innovation. And because of the flexibility of our Design-A-Fire feature, you can create a fireplace that perfectly reflects your style and taste.

Begin with your choice of fireplace size and style to fit the most intimate of spaces or the grandest of great rooms. Town & Country Fireplace adapts to your space with a huge range of sizes, each with one of the largest views of the fire in their category.

Design-A-Fire, only available on Town & Country, allows you to choose your traditional fire with split Chalet logs, the fascinating mature Heartwood fire, or the robust Country Home stacked logs. Or go ultra-modern with the Black Diamond floating fire of sparkling glass, or the serene river rock and sand of the Tranquility burner. Continue to design behind the glass with hand crafted beige stacked or herringbone brick, red herringbone brick, rustic Milan reminiscent of hand-plastered adobe or choose sophisticated reflective porcelain panels.

With Wide Screen, Arched and two-sided See-Thru models, Town & Country's Design-A-Fire concept allows you to customize your perfect fireplace and expand your design possibilities with over 300 distinctive combinations.

TOWN & COUNTRY WS54 SEE THRU

Maximize your home's architectural style with the Wide Screen 54 See Thru. Define space with the shared luxury of bold flames over tranquil stone and soft sand, or with dynamic injections of light through the sparkling Diamond Burner.

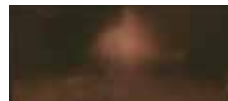

We let you design extraordinary spaces. With Town & County's unmatched venting versatility, the WS54 See Thru can be located almost anywhere within a building envelope - even 110' from an outside wall. And new to the WS54 See Thru, our innovative Power Vent System now allows for peninsula installations.

Go ahead, fire up your imagination!

Natural Gas or Propane. Power Vent Only.

TOWN & COUNTRY WS54

The WS54 Wide Screen is a massive landscape of deep, generous flame among the Tranquility fire's smooth sand and river rock, or the Black Diamond's sparkling black glass.

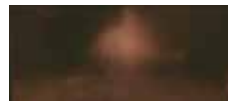

This ultra-modern fireplace art is sleek and modern in reflective Black, Coffee Bean Brown, Copper or Titanium porcelain firebox panels.

Its full 3-dimensional flame captivates the attention from any angle in the largest of rooms with the look of a custom fireplace.

TOWN & COUNTRY TC54

Town & Country's TC54 Luxury Gas Fireplace is the world's largest factory-built direct vent gas fireplace.

It is grandly proportioned to fit in great rooms and commercial settings that previously required a custom-built hearth.

Tall, vibrant flames dance behind premium "disappearing" ceramic glass so non-reflective your guests will believe it is an open fire.

When size matters, the TC54 delivers a massive performance.

TOWN & COUNTRY TC42

Views this spectacular need little introduction.

From the one that started it all, inventing the category of clean face, the TC42's dynamic, full flames are a commanding presence in any room. Go truly traditional, ultra-modern or soft and sophisticated with a choice of logs, tumbled sparkling glass, or river rock and sand. With Design-A-Fire, available only on Town & Country Fireplaces, you can mix-and-match fires and panels to create the look that is uniquely yours.

TOWN & COUNTRY TC36 TC36 ARCH

Recreate the authentic look of a wood burning hearth in a gas fireplace, or invent a look that is uniquely your own. Town & Country's TC 36 & TC 36 Arch gas fireplaces give you Design-A-Fire® versatility behind the glass.

For a historic look, consider the TC36 Arch, a classic barrel arch face, replicating the Rumford-style hearth found in fine period homes. This true Arch fireplace has no heavy external trim or louvers to work around. This allows you to tailor the arched front with stone, tile, or other material for an even more traditional look.

TOWN & COUNTRY TC36 SEE THRU

Town & Country's TC36 See-Thru Fireplace is the quintessential see-thru fireplace choice. Only Town & Country's proprietary Decorative Direct Vent Technology is capable of delivering the tall, bold flames that can fill such a generously proportioned firebox. A fire so uniquely stunning and unsurpassed that it demands attention in two rooms at once.

Design-A-Fire options behind the glass and venting versatility; create your two-sided fireplace where you want it.

TOWN & COUNTRY TC42 OUTDOOR

Create distinctive combinations to compliment your home's style with Town & County's endless design possibilities of interchangeable firebox panels and burner options. Whether your fireplace is modern or traditional, the TC42 Outdoor Fireplace promises to deliver an impressive focal point in your outdoor space.

And just as important of form is function; our sealed firebox protects your luxury fireplace from the elements. Disappearing ceramic glass, encased in a stainless steel frame, prevents any disruption from wind and ensures you will always have a clean, clear view of Town & County's signature bold flames.

Outdoor living has never been so luxurious.

TOWN & COUNTRY WIDE SCREEN SURROUNDS

Complement your Town & Country wide screen fireplace with one of our custom designed optional steel surrounds, available in copper or graphite finishes. These options are available for WS38 and WS54 Wide Screen models only.

See page 12 and 13 for examples of Wide Screen Surrounds.

TOWN & COUNTRY LIMITED LIFETIME WARRANTY

Our promise is backed up by our Limited Lifetime Warranty, and by a North America-wide network of dealers committed to providing the utmost in service and support. And behind it all stands our sales and technical team, ready to provide their skills and expertise.

Visit townandcountryfireplaces.com for more information.

FLUSH POWER VENT WALL TERMINATION

Town & Country Fireplaces innovation gave you the first Clean Face Fireplace to enhance the beauty of the inside of your home and now that same industry leading innovation has produced the first Clean Face Power Vent Termination System to maintain the beauty of the outside of your home as well.

The New Flush Power Vent Wall Termination mounts flush to the exterior wall and can be painted to match your home's existing color and sight lines.

AWARD WINNING REMOTE CONTROL SYSTEM

Maestro

The Direction of Fireplace Control

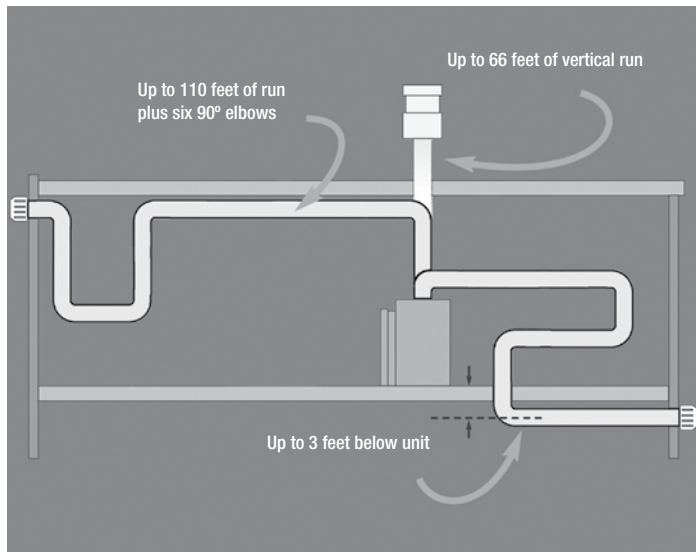

A wall-mounted switch with simple on/off and flame up and down operation plus the award-winning handheld remote is included with your Town & Country fireplace. From the oversized, easy to read display, you are able to effortlessly control the on/off, count down timer, thermostatic control, and program for weekdays and weekends. The display will illuminate in low light and a child safety lock out is standard on all remotes.

UNIVERSAL SMART HOME COMPATIBILITY

TOWN & COUNTRY VENT SYSTEMS

POWER VENTING

For information on the TC54 vent terminal, please consult instruction manual or your local dealer.

Town & Country's industry-leading power venting system allows a T&C Fireplace to be placed up to 110 feet of run from an outside wall. Vent up above, below or behind the fireplace with up to six 90-degree elbows including runs up to 3 feet below the unit.

Power venting specifications vary by Town & Country model. Consult product manual before installation.

(not available with TC42 Outdoor installations)

WE CREATED THE LUXURY FIREPLACE

Town & Country was the first to create the Clean Face fireplace—with no louvers to obscure the opening, a flush hearth so the fireplace can be set at floor level, and large life-like flames which successfully emulate the look of a wood-burning fire.

We now offer the largest true Clean Face and ceramic disappearing glass available—so you see nothing but huge, bold flames.

“the greatest breakthrough in the hearth industry in the past 10 years”

– Richard Wright, Publisher, Hearth & Home Magazine
