

Custom Prodigy

Prodigy shown with Driftwood and Speckled Stones

 **MONTIGO**[®]
the art of fireplaces

Beautiful. Bright. Alluring.

Our passion for beautiful, bold flames guided the development of the Prodigy. Refined elegance and modern design in a fireplace of unrivaled allure

Concealed Burner

The Prodigy adds tranquility and warmth to your home. The linear burner produces a relaxing ribbon-like flame. Your desired media can completely cover the bed of the firebox, enhancing the ambience even when the fireplace is not in use.

Frameless Design

Clean contemporary lines and frameless double glass design deliver breathtaking aesthetics. Finishing materials can be attached directly to the fireplace and brought down to the edge of the glass creating a stunning focal point without interruption.

Our Guarantee

Rest assured our uncompromising quality and long-term reliability is backed by our 10-year limited warranty.

See-Through Prodigy shown with Diamond Glazier Firestones

Specifications

- Up to 15,000 BTU/HR per linear foot
- Customizable media options
- Electronic ignition-no standing pilot
- Compatible with home automation systems

Available Unit Dimensions

Cool Pack Glass Technology

Prodigy fireplaces employ Montigo's patented Cool Pack glass technology, which maintains operating temperatures below 170°F. A channel of cool air constantly flows between the two layers glass so that the fireplace is always safe to touch, and no fire obscuring safety screen is needed.
