

TOFINO z35

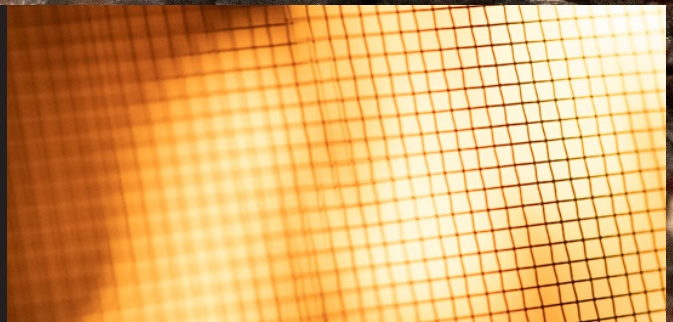

ZERO CLEARANCE GAS FIREPLACE

ELEGANT • VERSATILE • EFFICIENT

Safety is important and with today's advanced technologies and materials, there's no need to compromise aesthetics for safety. That is why Tofino Fireplaces come standard with an integrated micromesh screen that creates a virtually invisible safety barrier, allowing a clear, unobstructed view of the flame.

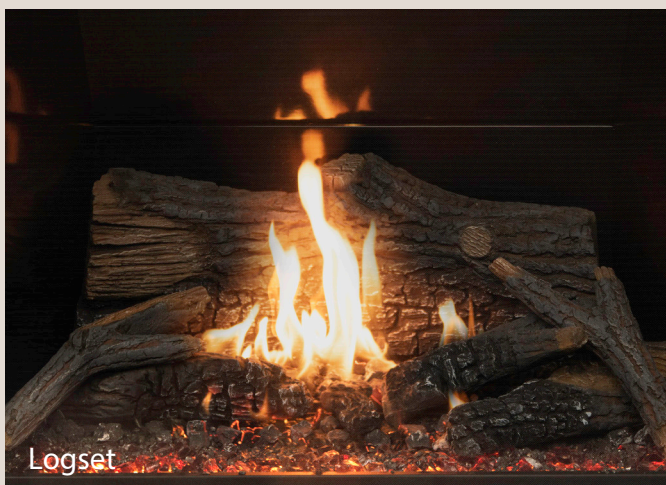

TOFINO SERIES

ELEGANT | VERSATILE | EFFICIENT

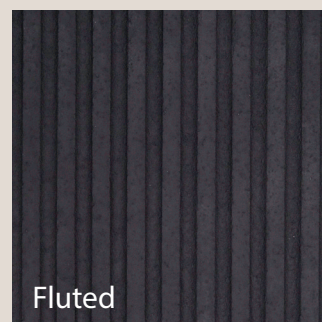

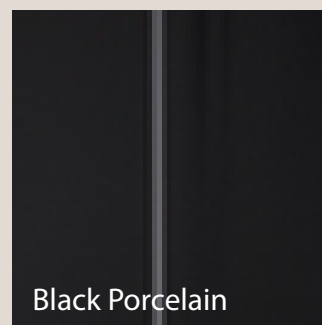

The Tofino Series of gas fireplaces offers you the highest level of quality, technical innovation, and performance for your home. Designed for new construction and renovation projects, the z35 provides maximum heat and ultimate energy efficiency with easy, one-touch programmable control. Heat output and flame heights are variable, allowing you complete control over comfort and appearance. Even at the lowest settings, the Tofino z35 flames are appealingly rich and full to gently warm your environment.

Transform your space with Pacific Energy's unique Design-A-Fire system of interchangeable interior options. Whether you choose a bed of fire over tumbled glass and lustrous porcelain enamel interior walls, or a rustic logset against a backdrop of stacked brick, your new gas fireplace offers expansive viewing area of the flame and the ability to create a fireplace that uniquely complements your style and your home.

DESIGN-A-FIRE. UNLIMITED POSSIBILITIES.

Our selection of interchangeable interior elements that allows you to customize your fireplace. It's the freedom to create the perfect combination of color, finish, and detail for your home.
