The Great Canadian Outdoor Living Company

# The Great Canadian Outdoor Living Company presents Pharaohs Estate Firetable Collections

Our Fire Tables and Fire Bowls are all hand-crafted from Cast-Limestone and the color and texture may vary from what is seen in these pictures.

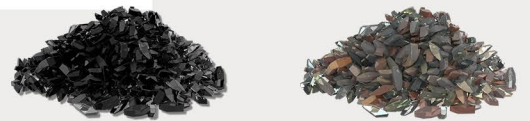

Our most popular choice is "Natural White" but there are other colors available—including stains which are colorfast and guaranteed to last.

The finish is generally quite smooth although, like stone,

sometimes with small pits and depressions in it that mimic the look of natural limestone.

Our finishes are travertine (slightly pocked) or honed, which is smooth. All our products undergo strict quality checks before they are sealed 2 times and urethaned as a final coat that will ensure your table needs no maintenance.

Another way to personalize your purchase is by choosing the glass color that can be laid on top of lava stone to enhance the appearance even more

All our burners are CSA approved and Canadian made rated between 80,000 and 90,000 BTU's. All our tables are hand crafted using our old world recipes, all being proudly made here in Canada. They come with a 3 year warranty.

Call us toll free 1 (833) 671-0519 or visit us online at [pharaohsestate.com](http://pharaohsestate.com)

---

Depending on the type of fuel being used (natural gas or propane), you may wish to hide a canister inside of a matching cabinet—as seen below.

There are, of course, various types of ignition sources as well. You could start the flames with a match, an electronic spark, or even with a remote.

Or maybe you don't want the burners at all—these models work equally well as planters or simply as decorations.

Covers are available to protect your fire table or fire bowl from weather, or to turn it into a flat surface so it can be used as a tabletop.

Lava rock comes standard with all units, with the option to add decorative colored glass shards, beads, or cubes on top.

All units proudly handmade with cement, pumice, limestone, clay and certain sands by The Great Canadian Outdoor Living Company for the Great Outdoors here in Canada.
