

U33 Installation Info

We are pleased to inform you that beginning in May 2024, U33 and U33 Tall gas fireplaces will now include a steel framing kit to simplify installations. This kit is designed to provide a stable and secure mounting solution, making the installation process easier and quicker.

The kit contains two adjustable horizontal beams and four vertical studs. Note that not all studs are needed for every installation, allowing for flexibility based on your specific requirements. Individual studs are also available for order.

FULL KIT:

50-4502 ADJUSTABLE STEEL FRAMING KIT (4 VERT / 2 HORIZ)

ADDITIONAL/REPLACEMENT PARTS:

50-4503 ADJUSTABLE STEEL STUD - VERTICAL

50-4504 ADJUSTABLE STEEL STUD - HORIZONTAL
