THE HALO CONCRETE

GAS FIRE PIT

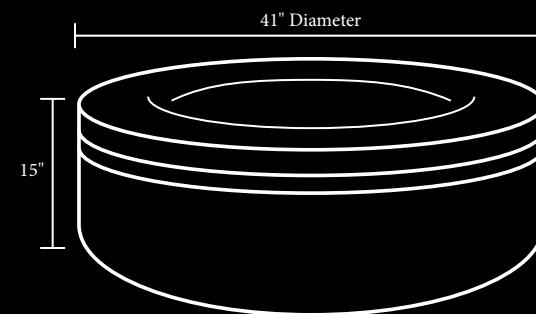

CLASSIC & MODERN

The Halo Gas Fire Pit Concrete straddles the line between classic and modern. The clean appearance accents perfectly with most outdoor furniture sets. The soft glow of the LED ring helps set the mood without distracting from the impressive flame. The exclusive *Spyder* burner design uses 140,000 BTU'S to create an organic burn pattern that delights the senses and looks incredible above your choice of crushed glass or lava rock. This new fire pit is also available in two different colors.

Specifications

BTU Max. Input - NG/LP	140 000 BTU
