

# **F-445 Holiday**

Redefining warmth and elegance in your home, the Jøtul F 445 combines the best aspects of a typical non-catalytic wood stove with groundbreaking Jøtul High Flow™ Combustor technology to create a clean-burning wood stove that operates without the need for a bypass.

The F 445 offers an unparalleled view of dancing flames, featuring a sleek exterior and a spacious firebox, inviting you to relax and unwind in its comforting glow.
