invites you in.

MENIOTA®

NORTH AMERICA'S LUXURY FIREPLACE

beauty from every angle

The 360 FireIn™ Stove shows off its beauty with three-sided viewing that brings a nostalgic look with much more efficient heat production. The FireIn burner is wrapped inside the logs to produce an ultra-realistic flame that will keep you cozy. Our hand-painted birch or white oak log sets further capture the realism of a crackling fire. It just looks and feels right.
