Signal 40 Corner

SIGNAL 40

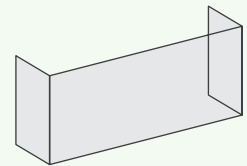

Available in three configurations.

SINGLE-SIDED

CORNER

3-SIDED

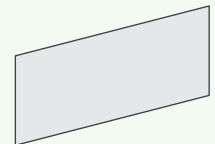

Our Signal series is a line of linear electric fireplaces with all the charm of a wood or gas flame but with the ease of an electric with a lower price point. The smallest in the series, the Signal 40 has a viewable opening of 40" wide making it great for condos, small homes and any other place where space is at a premium. Comes standard as single-sided and includes conversion kits for 3-sided and corner configurations.

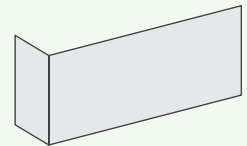

Signal 60 3-Sided

SIGNAL 60

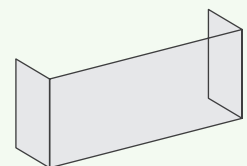

Available in three configurations.

SINGLE-SIDED

CORNER

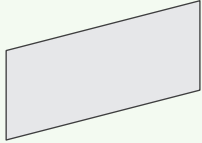

3-SIDED

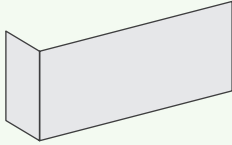

The Signal line of fireplaces offers a more affordable option with the same sleek, frameless design that's common in high-end gas models. With the popular 60" width, this model is ideal for those seeking a modern aesthetic without compromising quality, all while benefiting from the trusted reputation of European Home. Comes standard as single-sided and includes conversion kits for 3-sided and corner configurations.

SIGNAL 80

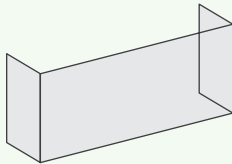

Available in three configurations.

SINGLE-SIDED

CORNER

3-SIDED

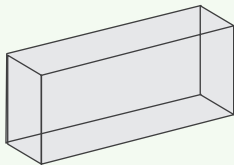

Signal 80 Single-Sided

This impressive electric fireplace, spanning 80" in length, is designed to make a bold statement in any space. Its size and elegant appearance are perfect for commercial environments like lobbies, waiting rooms, and common areas, where it can add warmth and sophistication. It's also a stunning accent piece for residential spaces, bringing a luxurious and welcoming ambiance into homes. Comes standard as single-sided and includes conversion kits for 3-sided and corner configurations.

OPTIC 50

Available in one configuration.

SEE-THROUGH

The Optic see-through electric fireplace is a cutting-edge solution that merges advanced technology with modern design. Its realistic flame effects, visible from both sides, make it a versatile and stylish way to divide spaces. Perfect for open-concept areas, this fireplace offers endless possibilities for creating a warm and inviting look.
