Features

 **ELEGANT**
electric

Select-A-Fire: From 40 Real Fire options with high-definition firebox panels and flames to match any mood.

No Reflections: Our anti-glare micro mesh screen is standard on all models.

Glowing Ember Bed: Enjoy the warm, inviting glow of a fully adjustable ember bed lighting that adds a cozy ambiance to any room.

Premium Physical Log Set: Our top-quality physical log set seamlessly integrates into the high-definition fire, adding dimension and authenticity to your installation.

Real Fire Audio: Enhance the realism of your fire experience with fully adjustable audio from a real fire.

Practical Realism: Equipped with a built-in blower and 1200W heater to keep your space warm and comfortable. Offering both plug-in and hardwire capabilities for your convenience.

Remote Control: Effortlessly control your fireplace settings with the included remote, providing convenience at your fingertips.

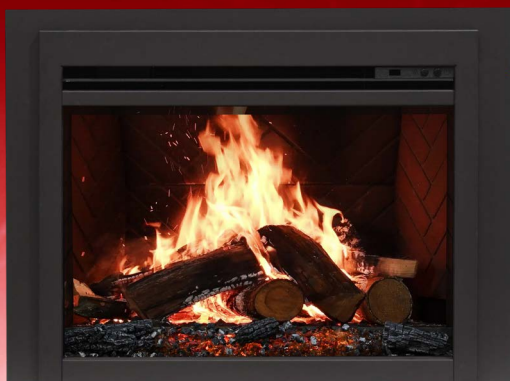

Crafted with Care: Each Elegant Electric fireplace has been meticulously designed with premium materials and hand-built in North America.

Flexible Installation Options: Elegant Electric fireplaces are designed to be easily installed as an insert or fireplace.

Traditional 24"

Our Traditional 24" unit is a perfect fit to seamlessly slide into existing 20" x 30" or larger openings with an optional oversized face plate to reinvigorate your space with a brand new look with a click of a button.

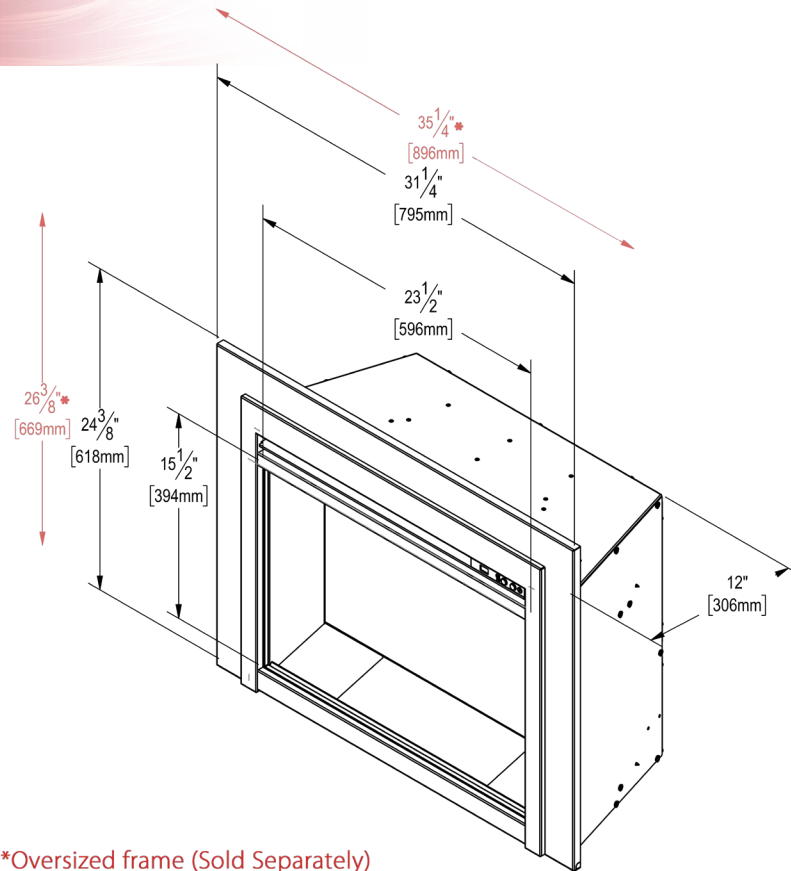

Traditional 38"

This slim fitting Traditional 38" is perfect for setting it into the wall for that tight cozy feel.
